

RESEARCH ASSISTANT PROFESSOR IN THE CLINICAL NEUROSCIENCE LAB
DEPARTMENT OF PSYCHOLOGY
THE OHIO STATE UNIVERSITY

[The Clinical Neuroscience Lab](#) in the Department of Psychology, within the College of Arts and Sciences, seeks a **Research Assistant Professor** to join our team. The lab, directed by Dr. Ruchika Prakash, has ongoing research projects related to investigating age-related deficits in cognition and the rehabilitation of these deficits using mindfulness meditation; understanding the cognitive and emotional sequelae of multiple sclerosis and the rehabilitation of these using physical activity and mindfulness-based interventions; and developing scalable and easily accessible mindfulness interventions to improve cognitive functioning, reduce affective disturbances, and improve overall quality of life. The successful candidate will have research interests that align well with many of the ongoing projects in the lab, and ideally, will add a dimension of their own research interests to widen the intellectual breadth of the lab.

The responsibilities of the position include co-directing the lab with the current PI and being involved in all activities of the lab—including the design and dissemination of research studies, personnel management, including the supervision/training of graduate students and post-doctoral associates, and outreach efforts led by the lab. The candidate will also be involved in the preparation and submission of grant proposals to be submitted to major funding agencies. The candidate will also have protected time to design and conduct independent research studies. This is a two-year term position, renewable contingent upon the continuing need for the position, the availability of funding, and a positive formal evaluation.

Minimum Education Required: Ph.D. in Neuroscience, Psychology, or a related field.

Required Qualifications: At least three years of post-doctoral experience, experience with the use of functional MRI and EEG approaches for the study of human brain function. Thorough familiarity with programming and analysis in MATLAB and/or Python are also required.

Target Salary Range: \$65,000-\$70,000

Apply online at: <https://hr.osu.edu/careers/> under job listing "R21656" and submit a CV, a brief statement of research interests, the expected date of availability, and the names and contact of three references.
